Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed 2/5/04 has been entered. Claims 1-4 have been canceled. New claims 5-9 have been added. Claims 5-9 are pending in the application.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Specification

3. The disclosure is objected to because of the following informalities: the substitute specification has been received and entered however it is noted that hyphens between numerical ranges values and superscripts on units have all been deleted throughout the substitute specification making the specification unclear.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. Claims 5-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 5 recites the limitation "wherein, in the second treatment liquid, the ratio of the weight% of zirconium and vanadium is 40-350" in lines 11-12, however the original disclosure at the time of filing does not support this limitation. The original disclosure recited that **the weight of zirconium to the weight of vanadium** in the second treatment liquid was 40-350%. Hence, the weight of zirconium is 40-350% of the weight of the vanadium. On the other hand, the instant claim limitation recites that the ratio of the weight% of zirconium **and** vanadium is

Art Unit: 1773

40-350, stating that the combined weight of zirconium and vanadium is 40-350% of some unknown basis which is not supported by the original disclosure at the time of filing and hence constitutes new matter.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 5-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 5 recites the limitation "wherein, in the second treatment liquid, the ratio of the weight% of zirconium and vanadium is 40-350" in lines 11-12, however, the claim provides no basis for this calculation and considering the specification only provides guidance with respect to the weight ratio of zirconium to vanadium, and not zirconium and vanadium, it is unclear as to what the 40-350% is computed.
